GOVERNMENT OF MYSORE, STORES PURCHASE COMMITTEE, BANGALORE.

No. S.P.C. 16343, *dated 9th March* 1933.

To

The firms on the Approved List of the Stores Purchase Committee Government of Mysore, Bangalore.

Gentlemen,

I would request you to please note that all our enquiries and tender notices are invariably published in Part VI of the *Mysore Official Gazette* issued every Thursday. In the case of the more important enquiries, notices are also published in the *Indian Trade Journal*, Calcutta.

2. As it is not possible to ensure that copies of enquiries are sent to every firm on our approved list, it is expected that intending tenderers will be on the look out for the publication of our enquiries in the above periodicals.

3. The Stores Purchase Committee do not also undertake to intimate the results of the tenders to the unsuccessful tenderers as full details of all orders placed by the Committee are regularly published every week in the aforementioned periodicals.

4. Part VI of the *Mysore Gazette* can be had from the Compiler, *Mysore Gazette*, Bangalore, on payment of an annual subscription of Rs. 3, postage extra Rs. 4.

No. S. P. C. 16719-28, *dated* 15*th March* 1933.

To

The firms dealing in Crude oil Engines, Pumps, etc.

Gentlemen,

Enquiry No. 277.

Supply of a crude oil engine and deep well pump with a centrifugal pump.

Please be good enough to quote your best prices and terms of delivery for the crude oil engine and pumps described in the attached schedule, for free delivery f.o.r., Tumkur.

2. Your tender should be subject to the following conditions :—

(*a*) Prices should be quoted separately for each item and the names of makers should be furnished. Necessary guarantees for the proper working of the plant should also accompany your quotation.

(*b*) Failure to make the supply within the specified time or according to specifications will entail cancellation of the order and purchases being made from other sources at your expense, in addition to the levy of a penalty of 3 per cent of the value of the order as and by way of liquidated damages.

3. The quotations should be superscribed "Quotations for Crude Oil Engine, Deep Well Pump, etc."

4. This enquiry will be closed on the 10*th April* 1933.

Specification for the Engine, Deep Well Pump and the Centrifugal Pump.

1. One crude oil horizontal or vertical engine capable of developing 8 H.P. to run a deep well pump and a centrifugal pump together. The engine should be totally enclosed and provided with two fly-wheels, fuel and lubricating tanks, exhaust silencer, blow lamp (if heating is necessary), starting handle, etc., complete.

A set of spanners suitable to it with instruction book and detailed drawings showing the foundations, etc., will also be required to be supplied. The fuel and lubricating oil consumption per hour should also be noted in the quotations.

2. One deep well pump to fit in a 6" bore well, capable of discharging about 2000 gallons per hour with suitable cylinders coupling rods and coupling fast and loose pulleys with striking fan, etc., complete. The pump should be capable of a total lift of about 150 feet the well being 100 feet deep.

3. One centrifugal pump of any well known manufacture capable of delivering about 2500 gallons per hour against head of 60 feet with a foot valve and delivery valve suitable to it.

No. S. P. C. 16915-35, *dated* 17*th March* 1933.

To

The Firms dealing in Pressed Steel Tanks.

Gentlemen,

Enquiry No. 278.

One Pressed Steel Tank with steel staging.

Please be good enough to quote your best prices and terms of delivery for the pressed steel tank and staging described below for delivery f.o.r. Tumkur:—

One Pressed Steel Tank consisting of 5 ft. square plated 15' x 10' x 5' having a capacity of 4650 gallons with the necessary $\frac{1}{8}$" steel plate cover on top and a manhole cover 21" drain with locking arrangement. It should be provided with an iron ladder inside and a guage to show the depth of water. The necessary jointing compound, bolts and nuts with washers, etc., complete.

One steel staging 25 ft. high for the above tank with channel iron rolled steel joists of suitable section to bear the weight of the tank with water. Angle iron bracings should also be included.

The staging should first be assembled before despatch and all the joints numbered and marked on each member to facilitate easy erection.

An iron ladder should also be provided from the ground to the top of the tank with proper fixtures.

Detailed working drawings for the staging with foundations and tank should also be sent with the materials.

2. Your tender should be subject to the following conditions:—

(a) Prices should be quoted separately for each item and the names of makers should be furnished.

(b) Failure to make the supply within the specified time or according to specifications will entail cancellation of the order and purchases being made from other sources at your expence, in addition to the levy of a penalty of 3 per cent of the value of the order as and by way of liquidated damages.

3. The quotations should be superscribed "Quotations for Pressed Steel Tank and Steel Staging".

4. This enquiry will be closed on the 10*th April* 1933.

Yours faithfully,
M. S. RAMCHENDRA RAO,
Secretary,
Stores Purchase Committee.
